# THE NEXT GENERATION OF BAUER EFFICIENCY

The new eco ProRain — the irrigation machine that is uncompromisingly focused on the essentials: quality, performance, and user convenience. By concentrating on core functionalities, the eco ProRain is a cost-effective solution for farmers who prioritize quality and efficiency.

## FEATURES

- + In house made PE pipe
- + Chassis and turntable galvanized
- + 2-wheel chassis with fixed track width 2.0m
- + Removable jack
- + Revolving pipe reel
- + Hydraulic machine supports
- + 4 speed gear with mounted turbine
- + Automatic cart lift for wheel cart
- + Irrigation computer Ecostar 6000 as standard with 2 solar panels and 24Ah battery
- + Bauer PE-pipe winding device

## PREMIUM ECOSTAR 6000 AS STANDARD

The new eco ProRain is equipped with the premium Ecostar 6000 irrigation computer from BAUER, designed to meet the latest standards in precision agriculture. When it comes to efficient and sustainable water management, there's no room for compromise.

### TOP HIGHLIGHTS OF ECOSTAR 6000

- + Touchscreen simplicity with button backup.
- + 12-program memory for tailored irrigation.
- + Water usage tracking and USB export.
- + Mobile control with error alerts.
- + SmartRain integration for advanced management.

## MORE VALUE. MORE PERFORMANCE. MORE BAUER.

### SHORT PAYBACK PERIOD

The investment quickly pays for itself thanks to efficient performance and economic initial investment.

### USER-FRIENDLY OPERATION

Easy to use, allowing customers to operate the system with extensive technical training.

### AFFORDABLE PURCHASE PRICE

Cost-effective investment offering excellent value for money.

### ADVANCED IRRIGATION MANAGEMENT

Enabled by high standard Irrigation Computer ECOSTAR 6000.

## TECHNICAL SPECIFICATIONS
